## EDUCATION

---

### University of Washington Bothell

*Expected: June 2022*

Bothell, WA

Bachelor of Science in Computer Science and Software Engineering

GPA: 3.7

Relevant Coursework: Data Structures, Algorithms and Discrete Mathematics, Software Engineering, Technical Writing, Database Systems

### Bellevue College

*Graduated: June 2020*

Bellevue, WA

Associates of Arts and Sciences with Mathematics Concentration

GPA: 4.0

Relevant Coursework: Differential Equations, Linear Algebra, Multivariable Calculus, Fundamentals of Computer Science

## SKILLS

---

- Languages: Java, C#, C++, Python, JavaScript, SQL
- Technologies: Git, Raspberry Pi, Linux, HTML, CSS, API, Embedded Systems, Cloud Computing, Node.js, Bash

## PERSONAL PROJECTS

---

### CoronaEats

*October 2020*

- Used **JavaScript**, **HTML**, and **CSS** to design and program a website that highlights coronavirus rates in King County and showcases the different restaurants that are currently open during the coronavirus pandemic.
- Served as the full-stack manager of this project, using **HMTL**, **CSS**, and **JavaScript** in making the website framework, creating a button to call the website link of a random restaurant, with the link stored in a **Node.js** CSV; worked in a team of three to complete this website in 24 hours so that it could be submitted to University of Washington's DubHack's October 2020 Hackathon for judging and presentation.

### Good News

*August 2020*

- Used **Java**, **JavaScript**, **HTML**, **Python**, and **CSS** to design and program a website that highlights positive news stories and places them in the forefront.
- Served as the frontend manager of this project, using **GSON**, **Java** and **Python** to use and call a **Bing API** to be used as the basis of the website, creating endpoints to fetch user input data; worked in a team of five to complete this website in 24 hours so that it could be submitted to University of Washington's DubHack's Hack'20 hackathon for judging and presentation.

### Geography Quiz Game

*August to September 2020*

- Used **Java** to create a geography game that contained different modes on how to be tested on geographical knowledge.
- Used **JFrame** and other Java frameworks to display the game's questions, buttons, graphics, and manage UI.

## JOB EXPERIENCE

---

### Teacher's Assistant/Grader

*December 2020 - Present*

University of Washington Bothell, Bothell, WA

- Worked as grader for CSS 107: Introduction to Computing through Visual Computer Animation.
- Graded various program exercises, projects, quizzes, and examinations for 90 students.
- Assisted students in designing and implementing programs visually.
